# B2B MEETINGS

BIGS organizers coordinated intensive, high level B2B meetings over two slots during the exhibition days which resulted in valuable matchmaking connections for exhibitors. Meetings were pre-booked, based on the exhibitor's preferences and the best matches to their products and services were found, in order to pursue potential partners and investors in the region.

The B2B meetings were with key personnel of companies in the region and high-level decision makers in the public and private sector, offering a unique opportunity for local and global exchange.

# B2B MEETINGS

We look forward to your participation at BIGS 2024!
